Mr. Toof states that, notwithstanding the favorable reports from Memphis and other points south, it will yet be several weeks before refugees can safely return to their homes, and other weeks must further elapse before business can be resumed, and before laboring people especially can earn a dollar. Wanting money and the pressing needs of approaching autumn will entail great suffering upon a large class, white as well as black, and it is these facts that it is hoped the charitable people of Louisville and elsewhere will bear in mind. The conduct of the authorities and citizens of Louisville in welcoming and succoring refugees from the south is beyond all praise, and fully in keeping with the whole-hearted hospitality for which she has always been noted. appeared. It is from the pen of Rev. Dr. John Fulton, of the Episcopal church:

Milwauker, September 11.—Some time ago a dispatch from Holly Springs was sent throughout the country to the effect that "Mobile offers to send nurses, but it wants to know what we will pay for them." It is very likely that some poor people accustomed to act as nurses in yellow-fever may have made such an inquiry. Small shame to them if they did; for, if the ceaseless vigilance and endurance of loathsome duties required in nursing yellow-fever does not deserve reward. I know of no service that does, Certainly Inever paid fifty dollars more cheerfully and gratefully than to the poor, kind-hearted, faithful man whe nursed me in Mobile seven years ago, and to whose family the money so paid proved to be a perfect Godsend But Mobile never made any such inquiry; and simply because the good work Mobile has done has been done quietly and unostentatiously, and as a mere matter of course, instead of being telegraphed daily all over the land. The people of Mobile have been shamefully misrepresented everywhere. Mobile is perhaps the poorest city in the south, yet, as you will see by the inclosed note from the Can't-Get. Away club that Mobile, though very likely ere long to need all her nurses, physicians and resources, has been quick to help her suffering neighbors. Permit me to add that I am acquainted with the persons named in the note. Judge Williams is an intimate and dear personal friend. Dr. Beatty, who has for weeks had entire charge at Grenada, was the first man I ever visited in vellow-fever. Major Walthall is a perfect hero in times of pestilence, as his conduct at home, in Norfolk (where he nearly died), and in Memphis (before as well as now) sufficiently proves. Dr. Iglehart is a medical knightermant, whom I have seen going, until he dropped, among the poorest of the poor, in places which it turns my stomach to this day to think of. Dr. Ross is not only a devoted physician, but he carries on the life-labor of an honored father, who h M. C. Garnett, 55 years, Chelsea.

Thacher, of the First national, who has been working nobly, and through whom large amounts were sent to the relief committees, was among yesterday's new cases; so his bank did nothing. Mr. Czapski, of the Union and Planters, being down, Messrs. Read and Stewart have the work to do. Pieces of exchange are occasionally wanted; and numerous notes are going to protest. Small lots are coming in, and those who are sending them need provisions; but their wants cannot be supplied, for the goods cannot be shipped on some of the roads, and the cotton connot be sold here owing to the absence of buyers. We were informed by a prominent factor that he would in a few days ship several car-loads to New York, or those who want money immediately, instead of cotton. As soon as one or two frosts come, and the business men return, it is probable there will be an cotton now experience difficulty in having it picked. Within six miles of Memphis there are many fields of excellent cotton that will be lost, merely because the negroes are too lazy to pick it, especially when some of their distant relations are sick, and there is a chance to draw rations. 1BY TELEGRAPH.7

Environed with Danger. The dweller or temporary sojourner in a malari ous region of country is environed with danger. Besides inhaling at every breath an atmosphere saturated with an infectious poison, he also drinks water which is in most instances likewise impregnates with the fever and ague breeding miasmata. If a with the fever and ague breeding miasmata. If a billious subject, deficient in stamina, or irregular in habit of body or digestion, his peril is much increased, as these abnormal conditions are extremely favorable to the contraction of malarial disease. But this danger may be safely encountered with the assistance of HOSTETTER'S STOMACH BITTERS, which completely nullifies the atmospheric virus, and neutralizes the constituents of miasma-tained water. This benign antidote to disease eradicates and prevents fevers of an intermittent and billious remittent type, besides effecting a thorough and permanent reform of those enfeebled or irregular conditions of the system which invite not only malaria, but other diseases equally to be dreaded.

By the Medicated Vapor Bath. It thoroughly purifies the system by withdrawing all poisonous matters, hus preventing contagion. This Vapor Bath that from the system, is obtained by an apparatus recently patented for the production of Turkish and Vapor Baths, at the cost of the heat required—about five Baths, at the cost of the heat required—about five cents. It can be moved from room to room, and managed by a child, with no danger in the operation. No family can have the Yellow-Fever if its members use it, and it has never been known to fail in draining the poison from the system when used on a Yellow-Fever patient. It has proved more effective than the ordinary Turkish Bathhouse in eradicating Bheumatism, Asthma, Catarrh, Skin Diseases, Dyspepsia, and all Nervous and Deblittating Maindles.

The entire apparatus for Turkish and Vapor Baths, including a case of medicinal agents for the production of six different Medicated Vapor Baths, \$10. We will send, carriage paid, on received of price, or C. O. D. by express, charges to be paid by purchaser. Pamphlet of testimonials and drawing of apparatus free.
